

STRATEGIC PLAN SUMMARY

The Disability & Philanthropy Forum is a growing philanthropic network addressing the urgent need to fill gaps in disability funding and representation across the sector.

Our Mission

The Disability & Philanthropy Forum mobilizes philanthropy to dismantle ableism by:

1. Increasing funding for disability inclusion, rights, and justice;
2. Amplifying the leadership of disabled people in the philanthropic sector; and
3. Educating philanthropy to build a culture of inclusion.

Our Programmatic Strategies

Three strategies will advance our three long-term goals over the next five years:

1. **Learning:** Build a learning ladder of programs and resources that help deepen funders' commitment to inclusive operations and disability rights and justice.
2. **Philanthropic Advocacy:** Advocate for disability rights and justice funding and operations, and, promote accountability through the Disability Inclusion Pledge.
3. **Peer Networks:** Sustain and build peer networks at all levels in philanthropy — from program and support staff to CEOs. [Learn about Peer Networks.](#)
